Empathy Map

This empathy map represents the perspective of a customer applying for a credit card. It helps understand the applicant's needs, concerns, actions, and emotions so that the machine learning system can provide faster and fairer approval decisions.

SAYS • I need a credit card with quick approval. • I want a simple and transparent process. • I hope my application gets approved.	THINKS • Will my credit score affect my approval? • I hope the decision is fair. • Are my income and documents enough?
DOES • Fills in the application form. • Uploads the required documents. • Checks the application status regularly.	FEELS • Anxious while waiting for the result. • Confident if financial details are good. • Happy when the application is approved.
